

Findhorn Collection

A place where the forest meets the sea, the Findhorn Collection of tables and stools contain details from both. Through-tenons exposed on the tables top are glued and set with metal wedges like an axe's handle to its head, while the ropework below nods to a mariner's craft. Cross lashing helps to hold the legs to the support ring as well as providing a handsome detail. These nautical-themed stools and tables are available in various combinations of finishes and sizes.
