

Hoop and Stave Table

Floating steel hoops let into a 12-sided stave base, and hold up a smoked glass top referencing the vintage craft of the cooper. Peering through the top, you're able to see the detailed solid white ash joinery within the base as well as the layers of stacked geometry that make this table unique. Available as a coffee table or dining table that seats six comfortably.

MATERIALS

Solid Canadian white ash, steel, tempered glass

FINISHES

White washed or carbon dyed ash and finished with low-VOC satin lacquer and beeswax polish.
