

Little Gem Side Table

Cast-off cedar logs are given second life as a crystalline form. The natural beauty of reclaimed wood is harnessed in this side table and sculpture piece where nature informs design. Each piece is hand-shaped and faceted based on the different characteristics of the log used, and variations in wood grain. Top surface and finish further ensure that no two are alike. Left to weather outdoors, this piece will acquire a natural silver finish.

MATERIALS

Western red cedar for natural and carbon dyed finish and yellow cedar for white and salmon dyed.

FINISHES

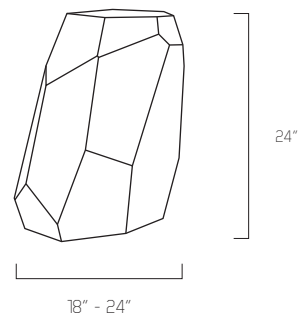

Natural, carbon, white, salmon. Hand rubbed oil and beeswax polish.

OPTIONS

Solid wood top or top insert: 1/2" deep recess allowing various materials to sit flush to edges. Common insert options are stone, glass, plated metals and powder coated metals. Other customizations available on request.

DIMENSIONS
